Introducing Our Latest Crystalline Silica-Free

At YDL Stone, we are committed to fostering a safer and more economically sustainable future. We proudly present our new series of innovative surfaces with less than 1% crystalline silica content. Developed through extensive research, our specially formulated surfaces are designed to significantly enhance safety for all stone fabricators.

YDL Stone offers an inspiring range of 44 colours, featuring subtle mineral flecks and distinctive veining, suited for any design application. Experience a new standard in quality, durability, and eco-friendliness with YDL Stone's Crystalline Silica-Free surfaces, crafted to enhance your everyday living.

Care & Maintenance

YDL Stone is high performance and easy to care for. Daily cleaning with warm, soapy water is usually enough, and tougher stains can be treated with recommended cleaners. Always use chopping boards for cutting, trivets for hot items, and avoid strong chemicals or excessive weight to keep your stone looking its best.
